11. REFERENCES

Project Completion Certificate from the company is Mandatory. The certificate should be attached with report (refer the arrangement of the contents of report)

FEW GUIDELINES FOR THE PREPARATION OF CONTENTS:

1. The Section 3.2 under proposed system either can be System Architecture or System Design. Use appropriate title (either System Design or System Architecture) which suits to your project. The Title of section 3.2 is either System Design or System Architecture. Accordingly modify the table of contents.
2. Include modules description and implementation of modules (if applicable) under the section 3.3 Implementation. Remove the section 3.3 if it is not suitable to your project and update the table of contents accordingly.
3. If there is no table in your report, then remove the “LIST OF TABLES” from the table of contents.
4. Change the title of Chapter 2 according to your project. The chapter 2 may include existing system or existing application or existing use cases.
5. Include the testing and testcases (if applicable) either in chapter 3 or 4 which is more appropriate place.
6. For all the chapters prepare the content suitable for the project.

Note:

The changes in the title of chapters 2 and 3, and its sections should be reflected in the table of contents appropriately.

Discuss with your guides to finalize the table of contents, contents for all chapters and sections.

NOTE: Usage of Sample project report

Refer the Sample project report of last year (2019) for the preparation of the content. Table of contents is modified w.r.t sample project report. Refer file “Table of contents-InternshipProject.docx” for the new format. For the preparation of chapter contents and references refer the sample last year project report.

Note:

Minimum number of pages of the report is 40
